'CARING AND RESPONSIVE'

FIRE EQUIPMENT TRAINING

Your emergency training needs are specific to you, the nature of your business, the environment in which you work, the equipment you operate and the personnel you work with.

Since commencing operations in 1984 Westside Fire Services has positioned itself to be recognised as an industry leader in Western Australia for the provision of Fire Protection Systems. This also includes the servicing of those systems and training you in their use as well. Your protection is our business.

Our Training Team members are supported by some of the most innovative technological solutions within the Industry which aid in training delivery. Our staff have numerous years' experience in the Emergency Response field which is supported by qualifications in safety, training, fire engineering and emergency management.

FIRE EQUIPMENT TRAINING

Our Fire Equipment Training is targeted towards all staff with a strong focus on safely suppressing a fire using portable fire equipment including fire extinguishers, hose reels and fire blankets. The training covers the following topics:

- **Fire Science**
- **Classes of Fire**
- **Extinguishing Agents/Types**
- **Safe use of Fire Extinguishers**
- **Safe use of Fire Hose Reels and Fire Blankets**
- **Practical Hands on training for each Trainee**

The training is delivered at your premises for a maximum of fifteen (15) trainees per group. To ensure the best possible learning outcomes for trainees a mixture of theory and practical training delivery is utilised over the 1.5 hour period of training.

COST

The cost of the training starts from \$450.00 plus GST. Our fees are inclusive of handouts for each trainee and further discounts can apply for multiple training sessions however please contact us to discuss your needs. If the training is to be delivered outside of metropolitan area further costs may be incurred.
